

Entry at 7+ (Year 3)

Written Papers

The English test draws on skillsets developed up to and including Year 2 of the National Curriculum. It consists of spelling, reading and writing tasks. Every attempt is made to allow the candidates to work at their own pace in a friendly and relaxed manner. The Mathematics test likewise equates to subject matter encountered at Key Stage 1.

Interview and Group Activities

The majority of candidates are invited to spend half a day at MCS in small groups, where they are involved in activities and taught by Junior specialists. Attention is paid to each child's co-operation, enthusiasm, self-discipline and ability to concentrate. The Head of Junior School will have an informal interview with each boy.

School Report

The Head of the candidate's current school is asked to provide a brief confidential report about the boy's progress and academic potential, his conduct and character and his wider interests and abilities.

Sample papers

We update the English and Mathematics papers annually, following the model of Key Stage 1 SATs.

With all our examinations, we are keen to look for potential, not simply current attainment. For this reason, we are always interested in the school reference, the wider interests of the boy, and any other applicable information; our own papers and interviews are designed with the intention of exploring the way in which each child thinks, helping us to assess his promise in this way, too. No special preparation is expected or required for the tests.

Magdalen College School 7+ English Comprehension Sample Questions

An Extract from The Battle of Hastings

William's army had 8,400 men and they were much fitter, they also had trained on horseback. Harold's army did not have nearly as many men and didn't have men on horseback. When Harold heard the news he and his army raced down to meet them. The battle lasted about 18 hours and the Saxons made a big mistake. They broke the line of shields and the Normans fled. The Saxons raced down after them and as soon as they got down the Norman army turned around and started to slaughter them. Then William shouted, "Fire your arrows in the sky!" So the archers drew their bows and fired. Harold looked up and an arrow fell in his right eye and killed him. William was crowned king on Christmas day 1066.

Written by a Year 3 pupil from Magdalen College School, with questions devised by a pupil and teacher from the school
